EMC Church Planting...  
Reaching People in  
Urban Centres

# CAMPAIGN OF **ONE**

ONE CITY, ONE CHURCH PLANTER, ONE CALLING

*Profile*

**Windsor, Ontario**

## The EMC's Campaign of One is looking for one church planter to work in urban Canada.

Is that person you?

Are you being called to start a church in Windsor?

The Apostle Paul was one person, yet he planted many churches and had a massive impact for eternity.

We are searching to find one person or family who is called by the Lord to plant a church in one of Canada's many cities—and to help them to fulfill that calling.

## Windsor, Ontario

Windsor is a city of just over 200,000 people. It's a city with an extremely diverse population. About 27% of the population are immigrants to Canada. More than 9,000 people identify their mother tongue as Arabic and more than 6,000 report their first language to be Italian.

Located in the southernmost portion of mainland Canada, Windsor is one of the few places where you have to go North to get to the United States.

One of the surprising perks of the city of Windsor is its remarkably low cost of living. While places like Toronto and Vancouver have the most expensive real estate in the country, Windsor finds itself having prices lower than many urban centres across the country.

But don't be fooled by the low price of housing. Windsor is a delightful city in a beautiful location. It's part of Canada's Great Lakes region, making beaches and water sports very popular. The Huffington Post describes Windsor as an im-

portant emerging arts scene. It's a city with a lot of creative energy, while also bustling with industry.

In a search through denominational databases online, there was only one church in the entire city within the Evangelical Anabaptist tradition—from the Mennonite Churches of Eastern Canada. Well-known Evangelical and Anabaptist church conferences like the EMC, EMMC, BIC, CMC, and MB all do not have any churches in Windsor. The city is only about a half-hour from two EMC churches in Region 9.
